CRAFTED

FROM

LEFTOVER

CORE

LEATHER

The signature recycled leather of LIND DNA is made from high-quality surplus leather from the furniture and fashion industry. The leftover core leather is finely ground and fused with natural rubber—a composition of 80% granulated leather and 20% natural rubber. This natural blend not only gives new life to discarded materials but also makes the leather stronger, more durable, and more resistant than in its original form.

RECYCLED

LEATHER

Core Leather

Leftover pieces of core leather from furniture and shoe production are collected to be transformed into our recycled leather.

Granulate

The core leather is granulated into tiny pieces.

Natural Rubber

The granulate is mixed with natural rubber from trees in a ratio of 80% core leather to 20% natural rubber.

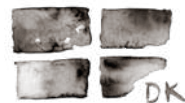

Water-Based Colours

We create natural water-based colours to dye our leather in a wide range of hues.

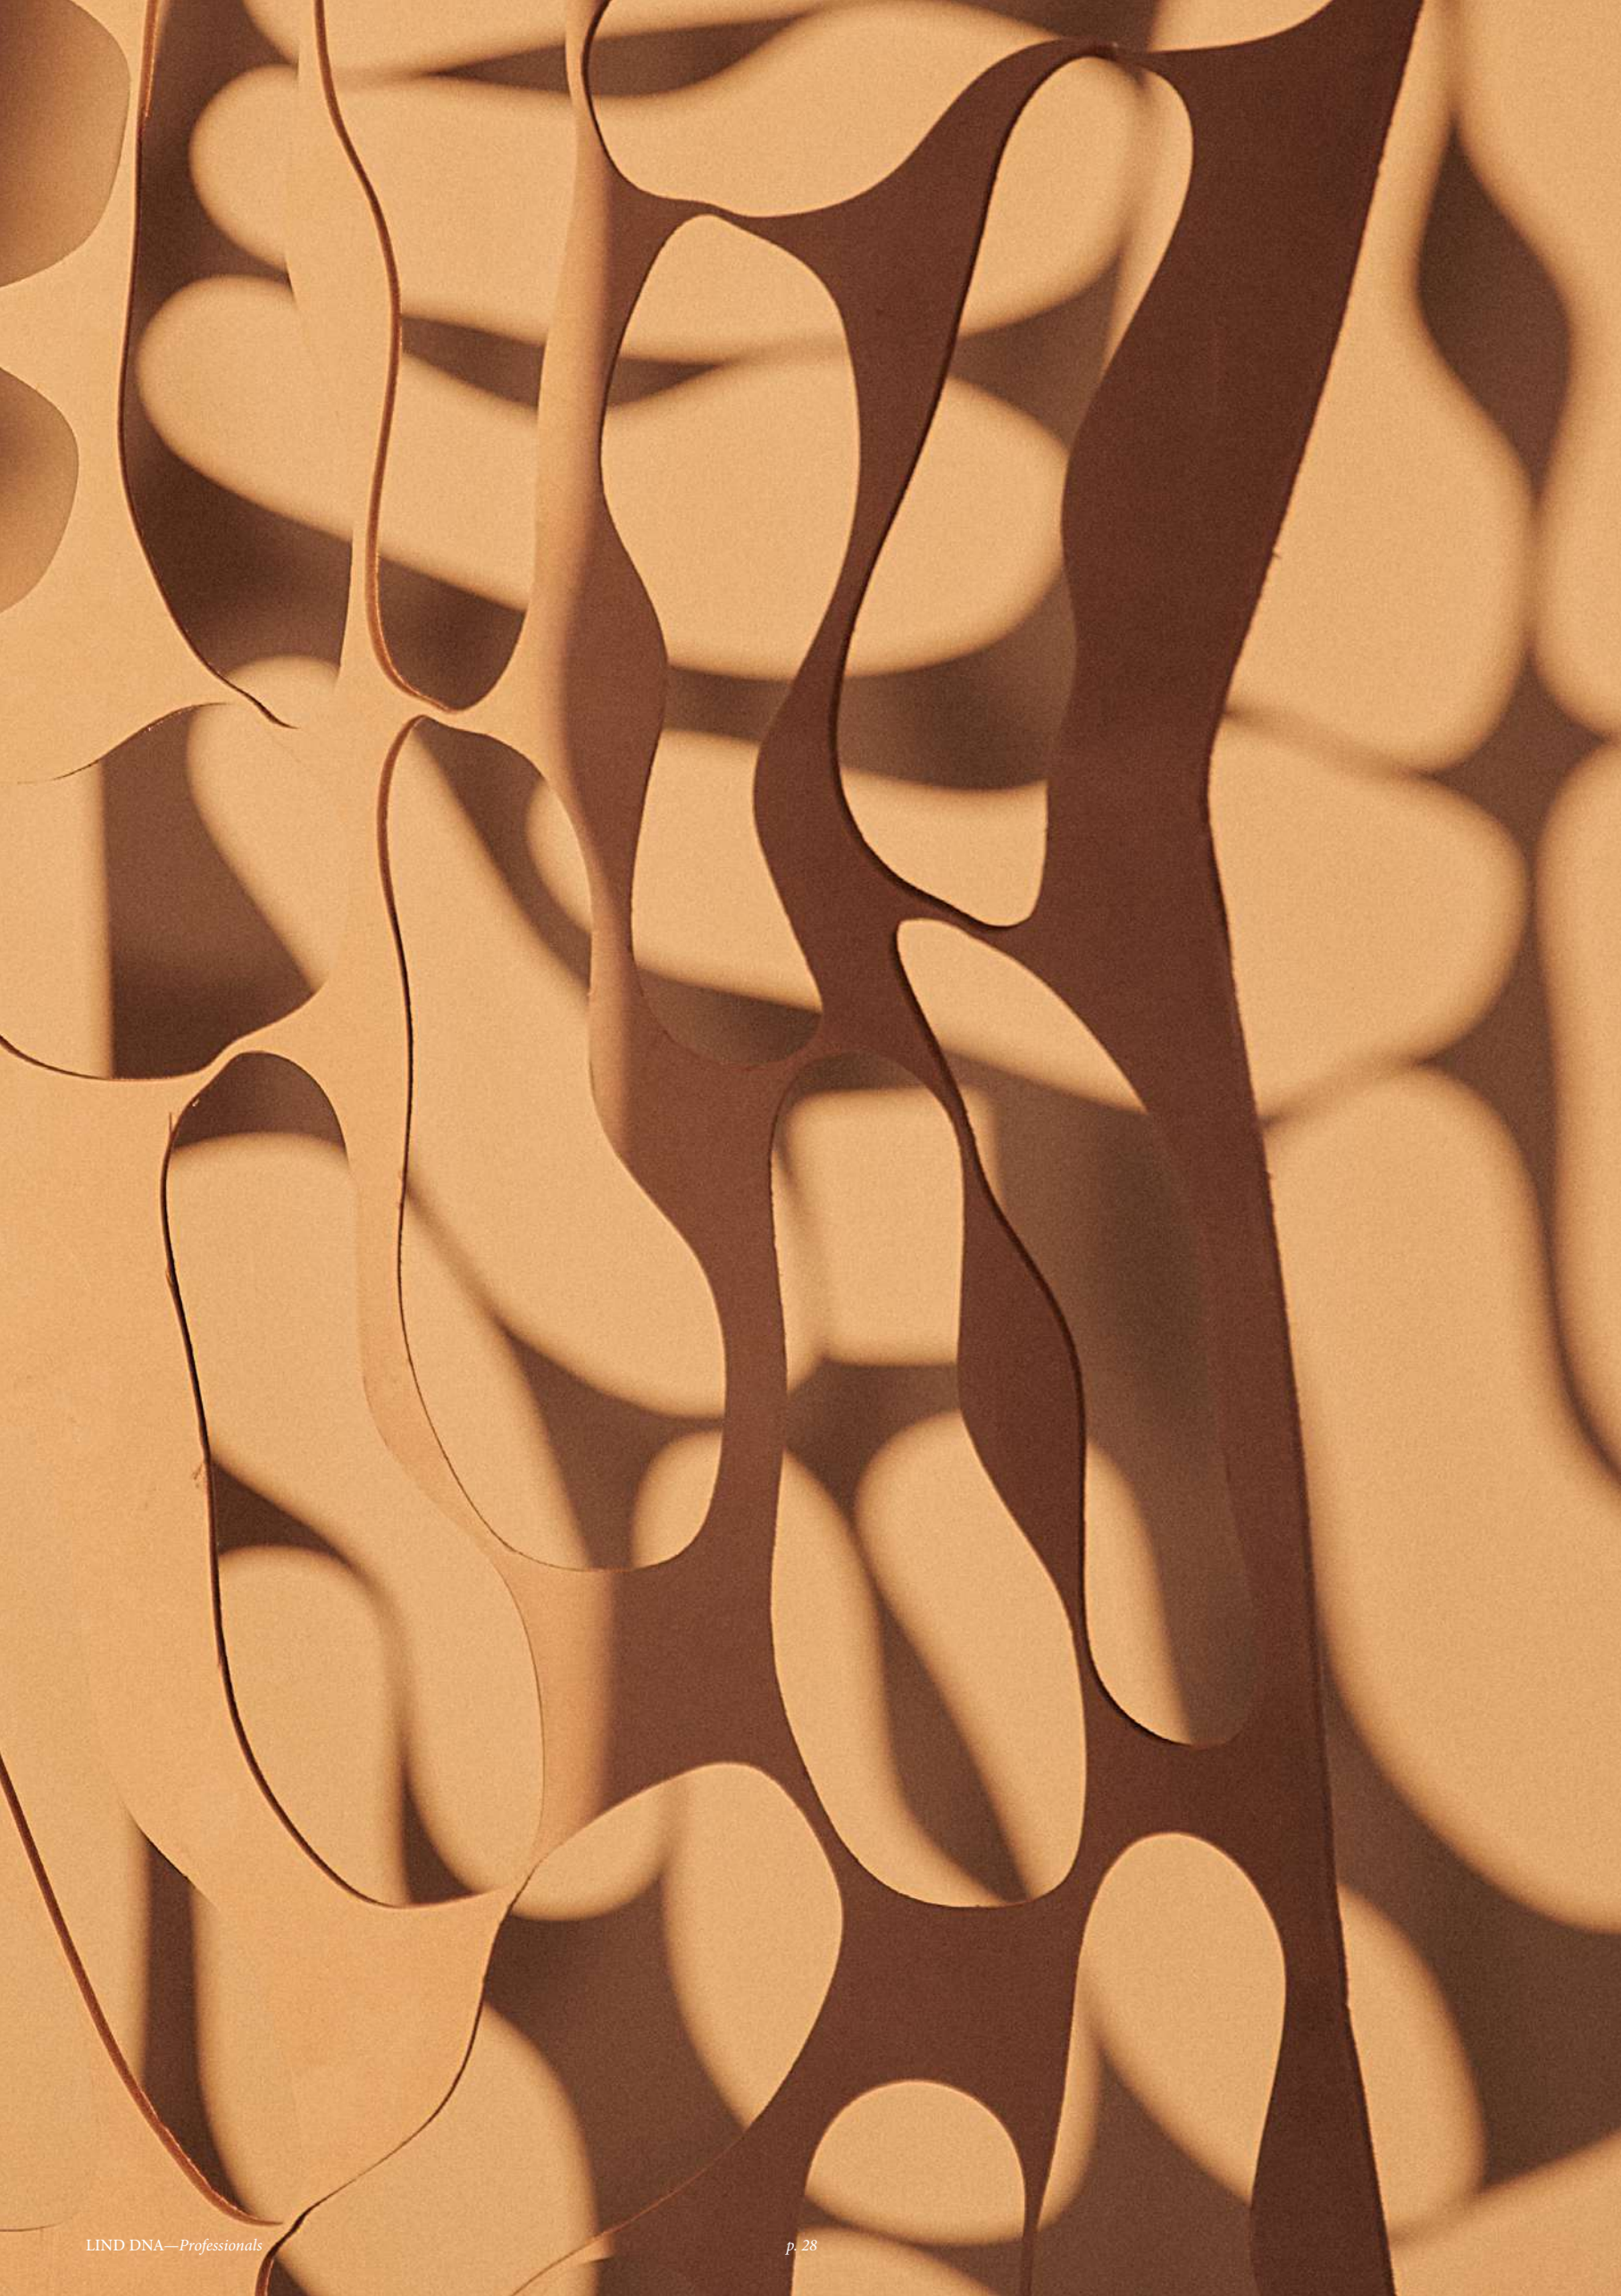

OEKO-TEX® Certified

Our signature OEKO-TEX® certified recycled leather is now crafted and ready for production.

Made In Denmark

All products incorporating recycled leather are designed and crafted in Denmark.

From:

AARHUS, DENMARK

To:

Restaurants, hotels, and projects
worldwide—directly from our
local production.

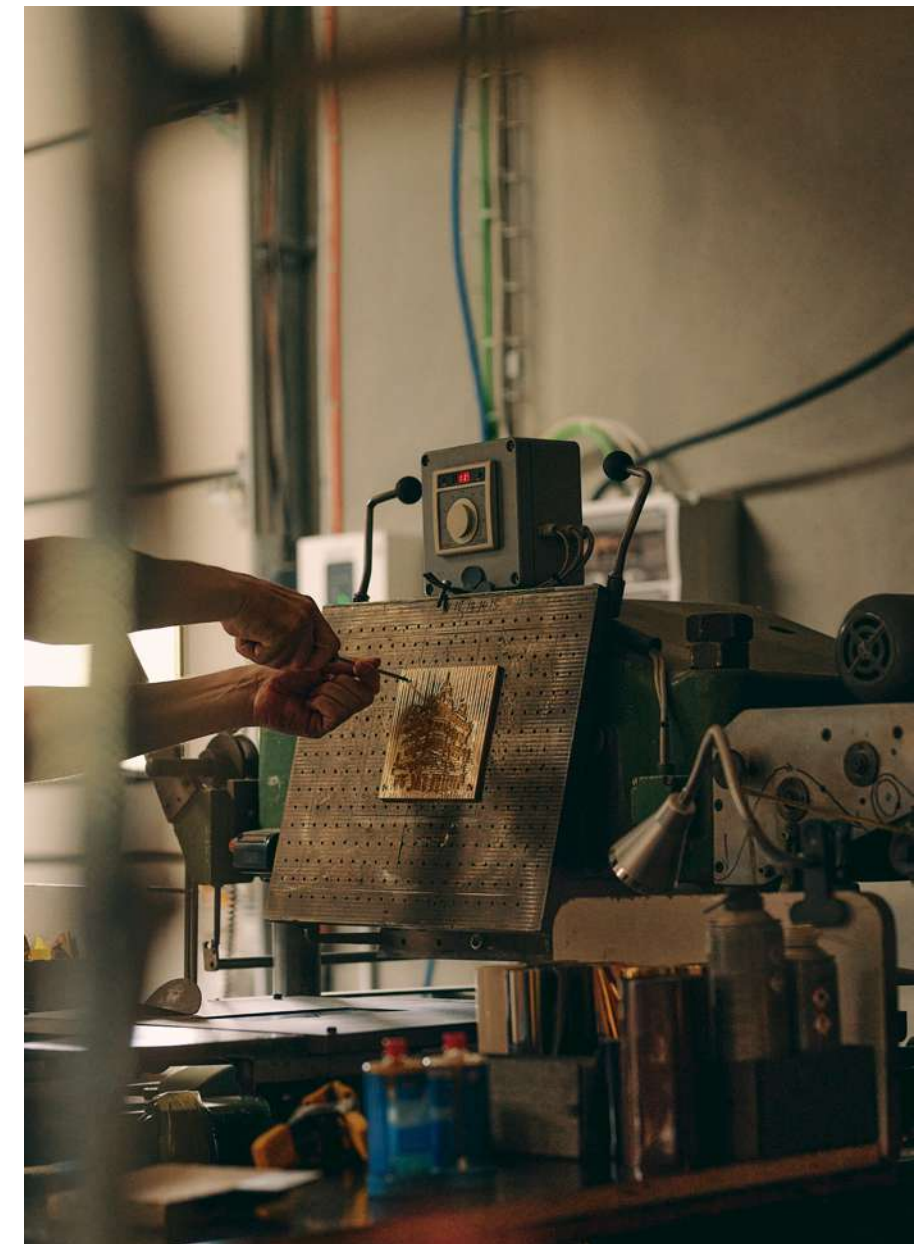

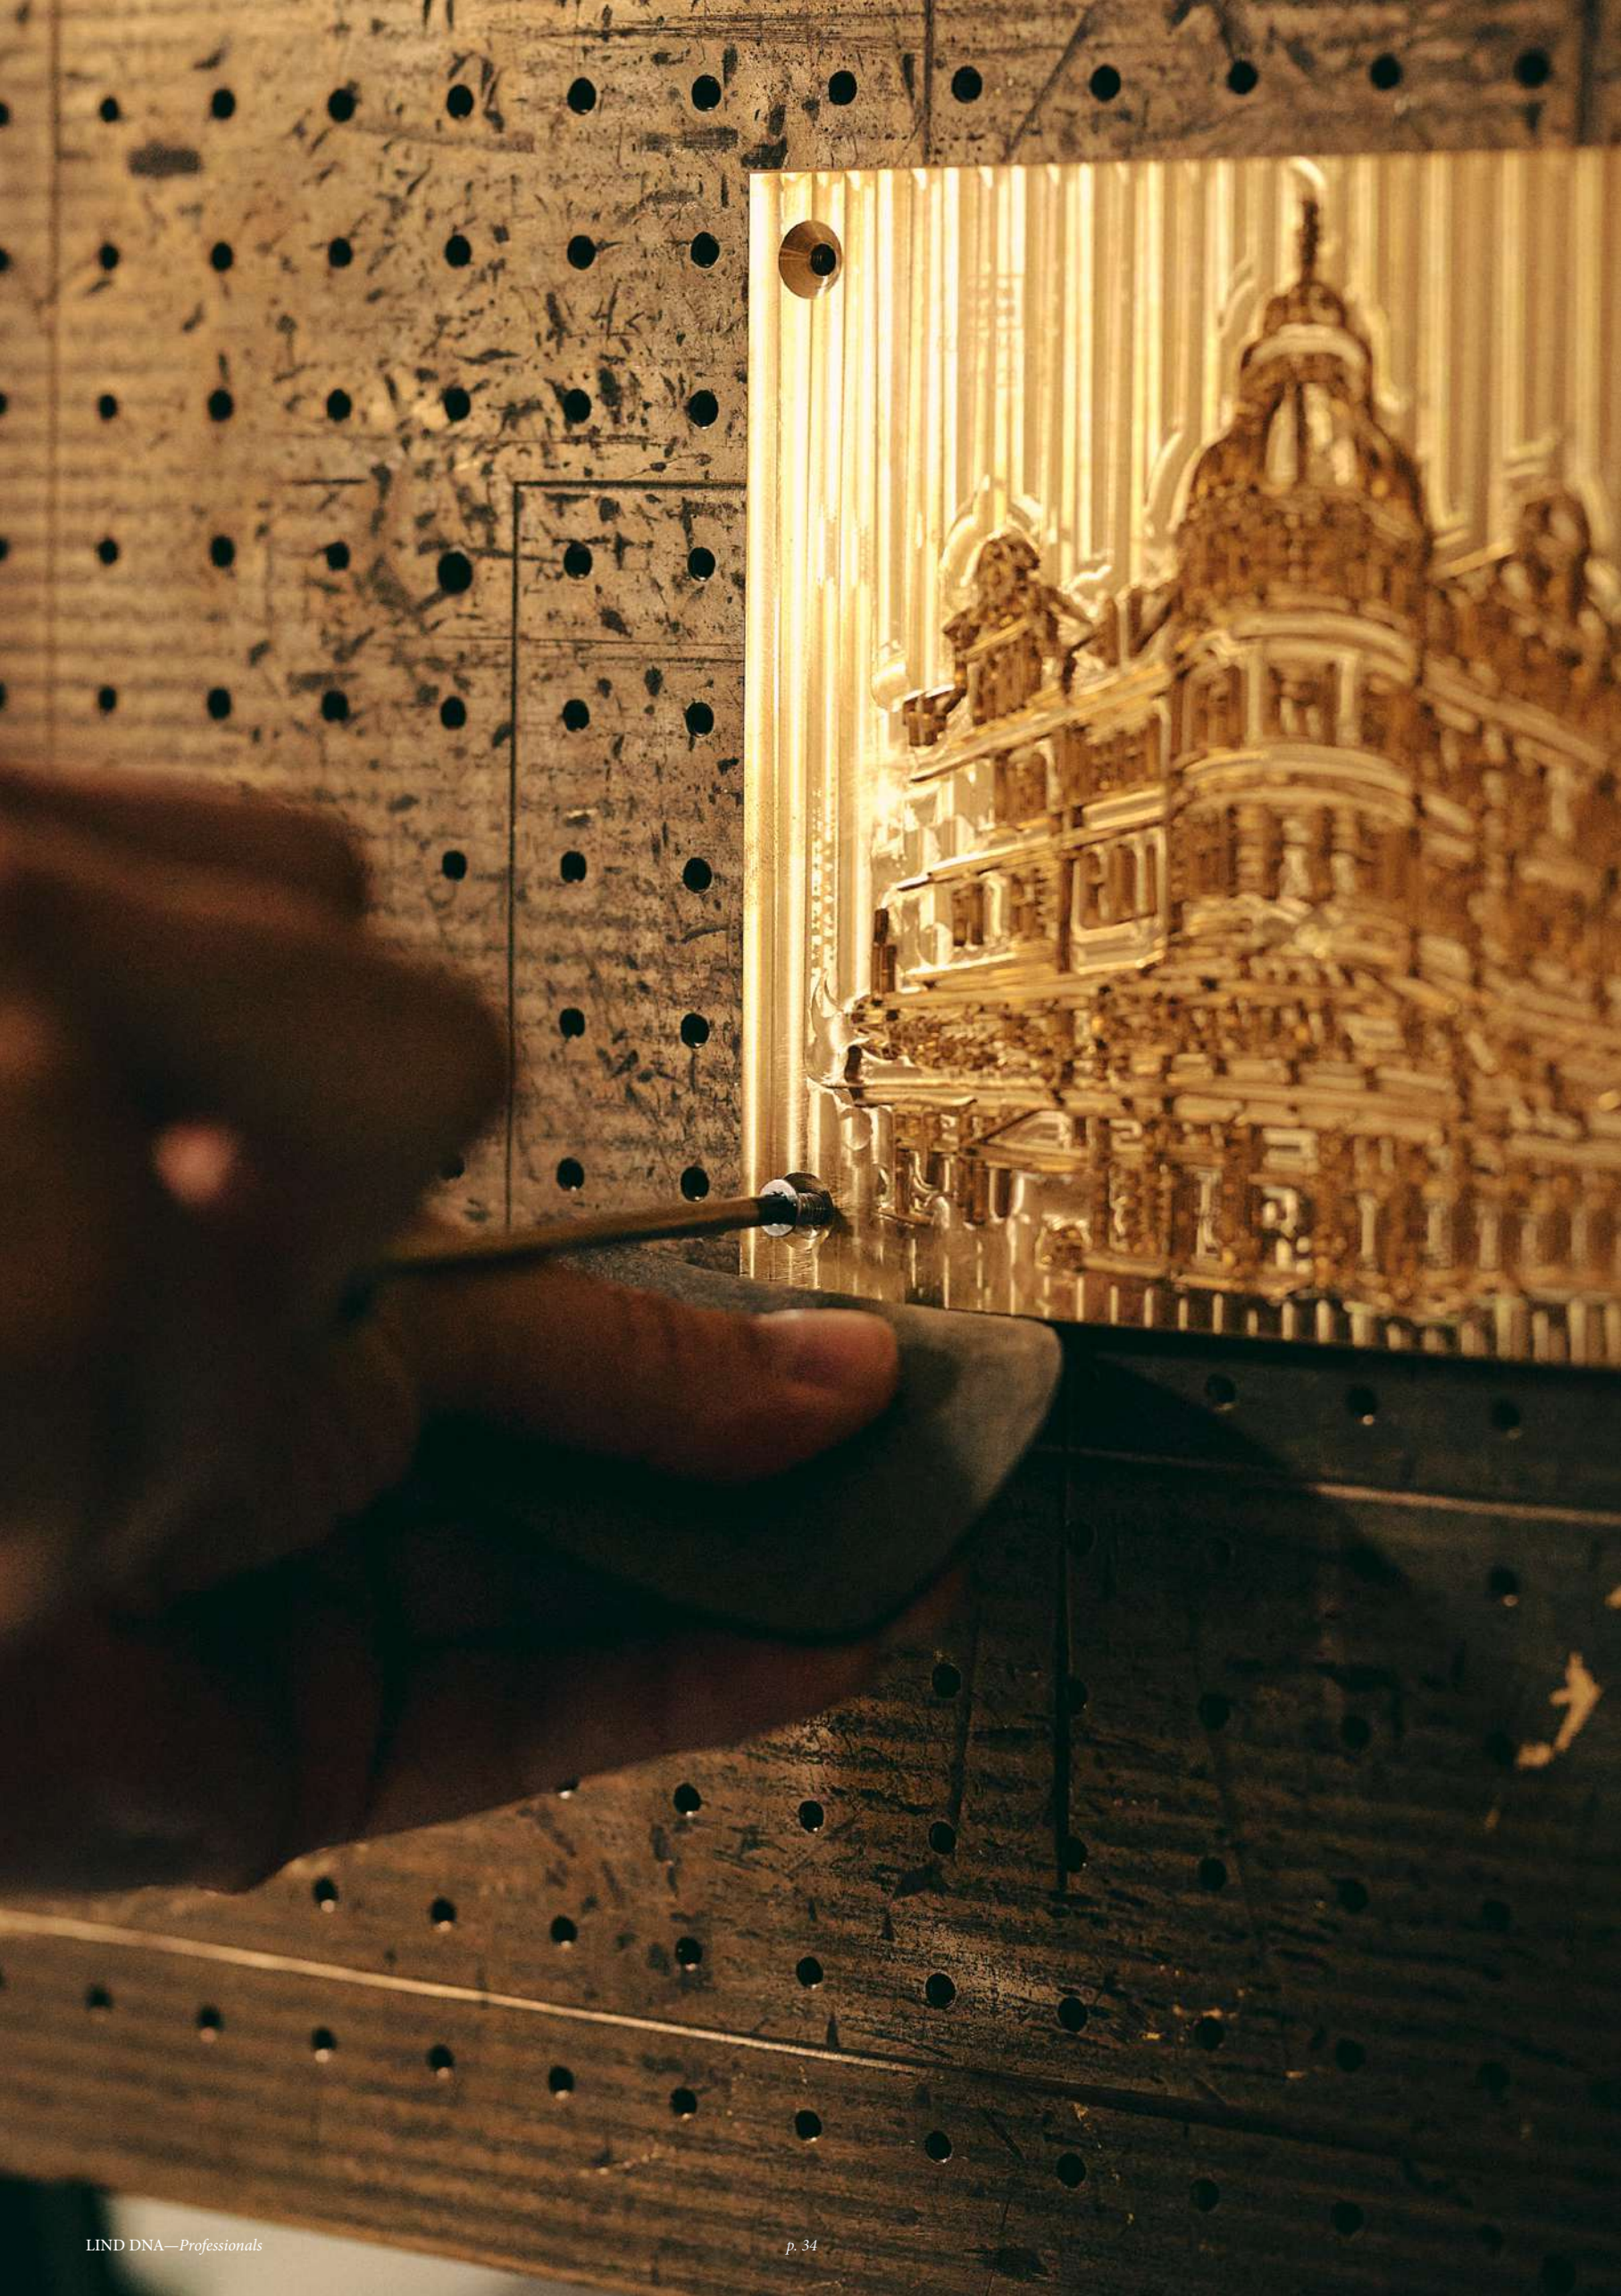

AN

ODE

From the smallest custom detail to the largest tailored solution, every piece carries the mark of our in-house craftsmanship. Rooted in Danish design tradition, it's a process where precision meets passion—and nothing is left to chance.

TO

CRAFTSMANSHIP

At our in-house artisan facility in Aarhus, Denmark each element is shaped by hand and with care. Here, the recycled leather is cut, debossed, and refined into customised designs.

With the interplay of foil and blind debossing, even the smallest details can be captured—whether expressed with delicate discreteness or on a larger, more striking scale.

Recycled Leather Textures

New Texture **Corduroy**

Elegant texture with tactile lines that shift with the light. Adds subtle movement and visual richness.

Nupo

Soft, matte surface with a minimalist look. The two-tone colour interplay add depth and elegance.

Serene

Polished, modern leather look with a soft, flexible structure. Easy to clean and store.

Bull

Classic leather appearance and designed to perform under heavy use over time.

Hippo

Textured surface with bold contrast. Ideal when both character and strength are needed.

Lines

The debossed lines of the Corduroy texture are subtle and dynamic—their visibility shifts with the light, adding a lively and intriguing character to the surface on the texture it's added to.

Each set of lines is carefully debossed by our crafts-
men in Aarhus, Denmark, ensuring high quality
and a refined finish.

Recycled Leather Care

Deep Cleaning Soap

Our deep cleaning soap both cleans and nourishes the surface of the leather. Apply the soap directly to the leather and wipe off with a warm, wrung-out cloth—or dissolve the soap in warm water and wipe.

Clean and Care Spray

Our Clean and Care Spray offers quick and easy leather cleaning. Simply spray directly onto the surface and wipe with a dry cloth.

Foil And Blind Debossing

With custom cliché stamps—featuring your logo or text—you can create a consistent look across all your recycled leather designs.

At our in-house artisan facility, we bring your products to life—tailored to your wishes and finished with high-quality branding.

Matte and Shiny Finishes

Foil debossing applies your design with a refined layer of foil in carefully selected colours that complement our recycled leather. Available in both matte and shiny finishes, it creates a striking, high-quality effect with timeless elegance.

Additional colours can be developed upon request, allowing us to create a bespoke foil shade that perfectly reflects your brand identity.

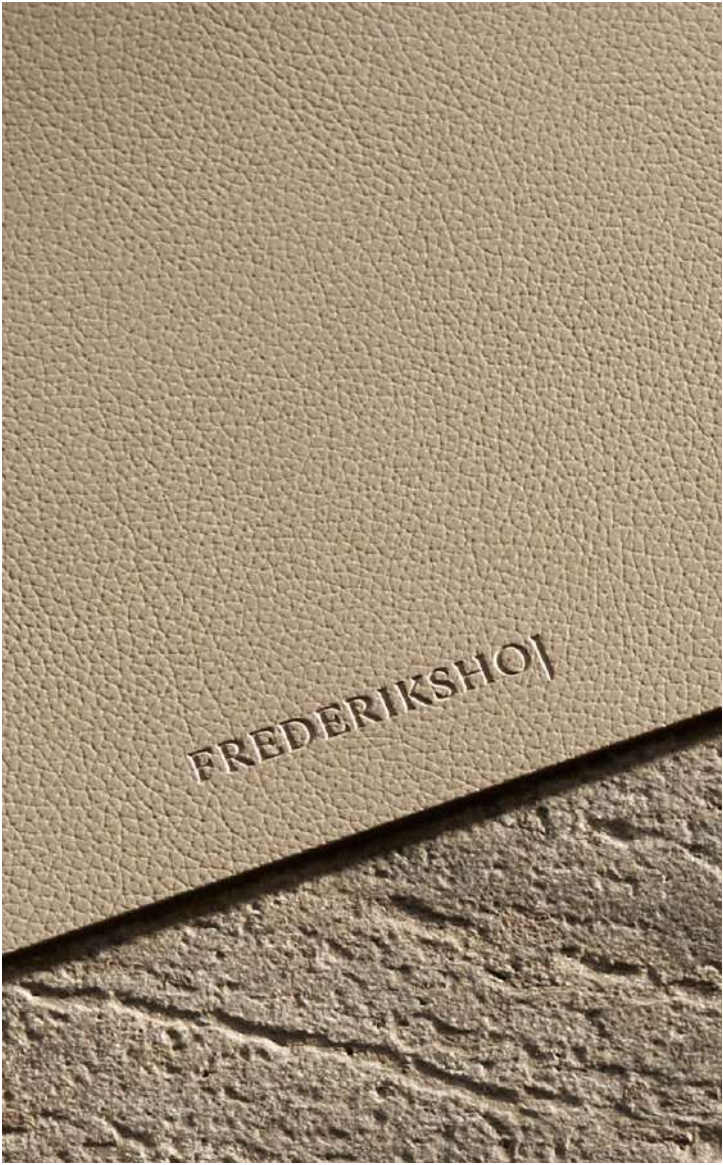

NB! The longevity of the foil depends on the care and maintenance of the leather texture it's applied to.

Always make sure to consult with a LIND DNA professional for tailored advice.
